

# Sensors for object detection and distance measurement

Product overview

Partnership.

Precise.

Pioneering.

# Visibly better: Baumer sensors.

The Baumer Group is leading at international level in the development and production of sensors, shaft encoders, measuring instruments as well as components for automatic image processing. As an owner-managed family business, we employ about 2700 workers worldwide in 38 subsidiaries and 19 countries. With marked customer orientation, consistently high quality and vast innovation capability, Baumer develops specific solutions for many industries and applications worldwide.

## Our standards – your benefits.

- Passion coupled with expertise – both have made us a sensor pioneer and technology leader
- Our range of services is hard to beat – we have the right product, developed by our own team, for every task
- Inspiring through innovation – a challenge Baumer employees take on every day
- Reliability, precision and quality – our customers' requirements are what drives us
- Partnership from the start – together with our customers we develop suitable solutions
- Always a step ahead – thanks to our production depth, our flexibility and our delivery reliability
- Available worldwide – Baumer is Baumer everywhere

## Object detection

### Inductive proximity switches

Cylindrical housings	6
Rectangular housings	8
Application-specific inductive sensors	10

### Capacitive sensors

Capacitive proximity sensors in metal housings	16
Capacitive proximity sensors in plastic housings	17

### Light barriers and light sensors

Subminiature and miniature sensors	18
Standard sensors – Rectangular and cylindrical	22
Sensors with extra power – O300/O500	24
Laser sensors	26
Light barriers without reflector – <i>SmartReflect</i> <sup>®</sup>	30
Transparent detection	34
Washdown design	38
Hygienic design	39
Fork and angle sensors	40
Differential, contrast and color sensors	42

### Fiber optic sensors and fiber optic cables

Plastic fiber optic sensors and fiber optic cables	44
Glass fiber optic sensors and fiber optic cables	46

### Ultrasonic sensors – the most versatile object detection

Miniaturized ultrasonic sensors	49
Robust ultrasonic sensors with flexible parameterization	49

Ultrasonic sensors with Teach button	50
High-speed sensors / Chemically robust sensors	52
Sensors with sonic nozzles / Large sensing distances	53

### Magnetic and cylinder sensors

Magnetic proximity sensors	54
Cylinder sensors	55
Analog magnetic rotary encoders	57
Hall / speed sensors	58

### Edge measurement and detection

Edge measurement	60
Copy counters <i>SCATEC</i> <sup>®</sup>	62

### Precision mechanical switches *My-Com*<sup>®</sup>

Cylindrical and rectangular housings	64
--------------------------------------	----

---

## Distance measurement

### Optical distance sensors

Minature sensors	68
High performance sensors	69
Sensors for long measuring range and standard sensors	70
Sensors in hygienic and washdown design	72

### Radar sensors

Radar sensors	74
---------------	----

### Ultrasonic distance sensors

Minature sensors	76
Robust distance sensors with flexible parameterization	77
Ultrasonic sensors with Teach button	78
Chemically robust sensors / for off-highway machinery	80
With sonic nozzles / long ranges	81

### Inductive distance sensors – *AlphaProx*<sup>®</sup>

Cylindrical housings	82
Rectangular housings	84
Linearized characteristic curve	86
Sensors with reduction factor 1	87
High-precision and high-sensitivity sensors	88
Robust sensors / Designed for Reliability	89
Sensors with IO-Link interface	90

### Linear magnetisc encoders

Dimension	92
-----------	----

---

### Measuring wheel encoders

Measuring wheels	94
Incremental encoders	95

### Cable transducers

Absolute cable transducers	96
----------------------------	----

---

## Accessories

Cables & adapters, mounting accessories	98
Testing and parameterization, network components	99
Reflectors & beam columnators	100
Magnets	101

# Inductive proximity switches

## Cylindrical inductive proximity switches for factory automation

The proven solution for safe, non-contact detection of metal objects

- Very small sensors with all integrated evaluation electronics and large sensing distance
- Sturdy, maintenance-free and durable
- Always the right sensor thanks to a wide variety of variants

protection class	IP 68/69K & <i>proTect+</i>		

# Inductive proximity switches

## Application-specific inductive sensors – Marine / for off-highway-machinery

- Inductive proximity switches for off-highway machinery – designed for reliability
- DNV-GL certified marine sensors

For off-highway-machines	IR12V.04S	IR18V.08S
category	compact	compact
features	<ul style="list-style-type: none"> <li>■ Designed for Reliability</li> <li>■ Versions with flylead connector German</li> <li>■ EN 13309, EN ISO 14982:2009, ISO 13766:2006</li> </ul>	
dimensions	M12	M18
nominal sensing distance $S_n$	4 mm	8 mm
switching frequency	2 kHz	450 kHz
housing material	brass nickel plated	brass nickel plated
operating temperature	-40 ... +85 °C	-40 ... +85 °C
protection class	IP 68 / IP 69K (face)	IP 68 / IP 69K (face)

Marine	IR12.P04S	IR18.P10S
category	compact	compact
features	<ul style="list-style-type: none"> <li>■ Versions with diagnostic input</li> <li>■ Marine type approval (according to DNVGL-CG-0339)</li> </ul>	
dimensions	M12	M18
nominal sensing distance $S_n$	4 mm	10 mm
switching frequency	1 kHz	800 kHz
housing material	stainless steel 1.4404 (V4A)	brass nickel plated, chromium plated
operating temperature	-40 ... +75 °C	-40 ... +75 °C
protection class	IP 67	IP 67
specific features		<ul style="list-style-type: none"> <li>■ Ecolab-tested</li> <li>■ FDA-compliant</li> <li>■ Vibration resistance EN 61373: 2010 (category 3)</li> <li>■ Shock resistance EN 61373: 2010 (category 3)</li> </ul>

# Capacitive sensors

## Capacitive proximity sensors

For level detection of liquids or granules as well as non-conductive objects.

- High switching distance up to 15 mm even through non-metallic walls
- Absolutely reliable even when interfered by ambient conditions, e.g. ambient light or dirt
- Reliable detection even of wafers, PCBs and paper stacks

# Light barriers and light sensors

## Standard sensors – rectangular and cylindrical

Unique reliable object detection and positioning with optical sensors

- Find the optimum solution quickly through large portfolio
- Easy to set up with clever teach-in function
- Extremely accurate object positioning with 0.01 mm precision

## *SmartReflect*<sup>®</sup> – the light barrier without reflector

With *SmartReflect*<sup>®</sup> Baumer has reinvented the optical light barrier: The reflector as the weak point is eliminated and highly reliable object detection is still guaranteed even for transparent objects. That reduces your costs tremendously.

### Your benefits

- Maximum system uptime and process safety
  - Very reliable object detection thanks to barrier principle
  - Elimination of the reflector as a potential source of error
  - No function impairment through dirt accumulation
  - Available in robust washdown or hygiene design
- Reduction of operating costs
  - No reflector means time saving installation
  - No need for a reflector eliminates exchange and wear
  - No need for a reflector eliminates cleaning effort
- Raising productivity
  - Sensing range up to 1.9 m or 1 m for transparent objects
  - High machine performance thanks to short response times of < 0.25 ms
  - Fast format changes, easy sensor exchange and additional usage data via IO-Link

IP 68 / IP 69K  
*proTect+*

IP 67/69K

The *proTect+* impermeability concept by Baumer ensures absolute dependability even under most adverse conditions. Thanks to the specifically conceived construction and the use of high-quality materials, sensors with *proTect+* provide IP 69K protection and ensure absolute stability even after countless temperature cycles. In order to achieve this, the sensors have been shock-tested over the entire temperature range. The *proTect+* concept ensures enhanced reliability and extended sensor service life.

More information at [www.baumer.com/protect+](http://www.baumer.com/protect+)

 UZxx = 2 point proximity switch  
 UExx = through beam sensors

### Robust ultrasonic sensors with flexible parameterization

Extremely robust – U500 and UR18

- Highest process reliability due to hermetically sealed sensor element
- IO-Link functionality for flexible parameterization
- Short blind range of 70 mm with a sensing distance up to 1000 mm
- Superb quality with an affordable price tag

## Functional principle

The heart of a magnetic magnetic angle sensor sensor is the integrated dual differential Hall element which builds an electrical parameter related to the flux direction of an exterior magnetic field. This magnetic field rotating about the element's center axis generates two sinusoids shifted by 90° which are utilized to detect the rotation angle for output as an absolute value. The integrated electronics evaluates the sinusoids into a linear voltage or current signal. The absolute dection principle ensures output of the correct rotation angle even after power failure.

Rectangular design. Angular range 270...360°.

- Linearized analog output signals
- Resolution up to 0.09°
- With magnet rotor
- Absolute sensing

## Robust speed measurement

Hall sensors operate on non-contact sensing of ferromagnetic objects. Thanks to very high switching frequencies they are even capable of detecting the teeth at fast rotating gears. Space-saving and extremely robust, they provide eased speed feedback.

## Functional principle

Hall sensors operate on a current-carrying semiconductor which is biased by a permanent magnet installed behind. This magnetic field being penetrated by a ferromagnetic object causes the semiconductor to change voltage, which is transformed by the integrated electronics into an amplified square signal.

# Distance measurement

Sensors for detecting distances and distance information from the  $\mu\text{m}$  range to over 40 m.

## Distance measurement

### Optical distance sensors

Minature sensors	68
High performance sensors	69
Sensors for long measuring range and standard sensors	70
Sensors in hygienic and washdown design	72

### Radar sensors

Radar sensors	74
---------------	----

### Ultrasonic distance sensors

Minature sensors	76
Robust distance sensors with flexible parameterization	77
Ultrasonic sensors with Teach button	78
Chemically robust sensors / for off-highway machinery	80
With sonic nozzles / long ranges	81

### Inductive distance sensors – AlphaProx®

Cylindrical housings	82
Rectangular housings	84
Linearized characteristic curve	86
Sensors with reduction factor 1	87
High-precision and high-sensitivity sensors	88
Robust sensors / Designed for Reliability	89
Sensors with IO-Link interface	90

### Linear magnetisc encoders

Dimension	92
-----------	----

### Measuring wheel encoders

Measuring wheels	94
Incremental encoders	95

### Cable transducers

Absolute cable transducers	96
----------------------------	----

## Accessories

Cables & adapters, mounting accessories	98
Testing and parameterization, network components	99
Reflectors & beam columnators	100
Magnets	101

# Optical distance sensors

## Optical distance sensors

Precise distance, spacing and position measurements even on challenging surfaces

- Fast and accuracy in the submicrometer range
- Reliably even on very rough, shiny or dark surfaces
- Very high ambient light immunity
- Large selection of performance classes, sizes and beam shapes

# Radar sensors

## Radar distance measuring sensors

Precise measurements in the most extreme environments

- Smallest radar sensor with very narrow beam profile
- Reliable distance measurement up to 40 m even in harsh environments and when covered with dirt
- Available in Europe, USA and Canada

### RR30.DA (122 GHz)

for flat or round objects  
to 40 m

#### features

- Parallel analog and switching output
- Narrow opening angle

#### dimensions

M30 × 107 mm

#### measuring distance

0,3 ... 40 m

#### response time

< 1 ms

#### output

4 ... 20 mA / 20 ... 4 mA +  
push-pull  
0 ... 10 V / 10 ... 0 V +  
push-pull

#### adjustable parameters

Measuring distance, switching points via *qTeach*

#### connection types

connector M12 5 pin

#### housing material

stainless steel

#### operating temperature

-25 ... +65 °C

#### protection class

IP 68/IP 69K

# Ultrasonic distance sensors

## Miniaturized ultrasonic distance sensors

Small and light – for cramped spaces and very small openings

- Smallest and lightest ultrasonic sensor weighing only 4 grams
- Large selection of round and rectangular designs
- Measuring ranges up to 400 mm
- Narrow sonic beam angles for measurement in very small openings

### Robust ultrasonic distance sensors with flexible parameterization

Extremely resistant and flexible parameterization for any application

- Highest process reliability due to hermetically sealed sensor element
- IO-Link functionality for flexible parameterization
- Short blind range of 70 mm with a sensing distance up to 1000 mm
- Highest quality with high economic efficiency

interpolation	factor 20, 50, 100
movement speed	<5 m/s (resolution 5 µm) <10 m/s (resolution 10 µm) <25 m/s (resolution 25 µm)
output circuit	HTL/Push-pull TTL/RS422
output signal	A 90° B, R + inverted
total resolution	5 µm (factor 4 evaluation) 10 µm (factor 4 evaluation) 25 µm (factor 4 evaluation)
system-accuracy	±(0,02 mm +0,04 mm x magnetic belt length)
connection	cable 2 m cable 0,3 m with connector M12
voltage supply	10 ... 30 VDC, 5 VDC ±5 %
operating temperature	-40 ... +85 °C
protection class	IP 66, IP 67

# Measuring wheel encoders

## The efficient and reliable solution to length measurement.

Programmable incremental encoders used in conjunction with measuring wheels

- Particularly easy acquisition of position and speed with high flexibility
- Perfect for ink jet and laser printing applications thanks to precise optical sensing

MA20

MR series

category	Compact, high-resolution measuring wheel system
features	<ul style="list-style-type: none"> <li>■ Measuring wheel encoder comprising encoder, tether arm and measuring wheel</li> <li>■ Contact pressure fully adjustable</li> </ul>
configurable parameters	16 pre-defined resolutions
configuration	HEX switch
sensing method	optical
dimensions	∅ 40 mm (encoder)
voltage supply	4,75 ... 30 VDC
output stage	HTL/push-pull
output signals	A 90° B
shaft type	solid shaft ∅ 6 mm
connection types	flange connector M12, cable radial
pulses per revolution	100 ... 25 000
operating temperature	-20 ... +85 °C
protection class	IP 64
operating speed	≤ 3000 rpm
options	measuring wheels available with different rubber surface

category	Measuring wheels
features	<ul style="list-style-type: none"> <li>■ The perfect grip at any surface</li> <li>■ Different surface profiles to match the application best</li> <li>■ Circumference 200, 300 or 500 mm</li> <li>■ For shaft diameter 4 ... 12 mm</li> </ul>

EIL580P-SC

category	Programming, incremental encoders combined with measuring wheel and programming device
features	<ul style="list-style-type: none"> <li>■ Solid shaft with pressure or servo flange</li> <li>■ Programming resolutions and signals</li> </ul>
configurable parameters	Pulses per revolution, output stage HTL or TTL, zero pulse, signal sequence
configuration	PC software / hardware adapter, handheld programmer
sensing method	optical
dimensions (flange)	ø 58 mm
voltage supply	4,75 ... 30 VDC
output stage	TTL/RS422 HTL/push-pull
output signals	A 90° B, R + inverted
shaft type	solid shaft ø 10 mm or ø 6 mm
connection types	flange connector M12, M23, radial / axial cable, radial / axial / tangential
pulses per revolution	1 ... 65536
operating temperature	-40 ... +100 °C
protection class	IP 65, IP 67
operating speed	≤ 12 000 rpm (IP 65) ≤ 6000 rpm (IP 67)
max. shaft load	≤ 40 N axial, ≤ 80 N radial
options	isolated hollow shaft, flange variant, connector variant

Z-PA-EI-H

category	Handheld programmer for encoder EIL580P
features	<ul style="list-style-type: none"> <li>■ Simple and quick configuration</li> <li>■ 4 user-assignable buttons</li> <li>■ Intuitive menu navigation</li> <li>■ Standard AA battery supply</li> </ul>

- PUR sheath
- Various lengths available up to 10 m

#### characteristics

### Mounting accessories

#### Mounting kits

- Sensofix Mounting sets
- Robust metal version
- Mounting sets for various sensor types
- Easy, flexible alignment

#### Mounting bracket

- Matching mounting brackets available for various sensor types
- High quality metal
- Compatible with flexible Sensofix

#### Mounting bracket

- Easy, fast mounting of smooth and cylindrical sensors
- Available from  $\varnothing$  6,5 mm to  $\varnothing$  20 mm

#### Bracket for profiles

- Mounting adapter for diverse sensor types
- e.g. for mounting in profiles, slots, cylinders, etc.

#### characteristics

Testing and parameterization, network components

Testing and parameterization	Sensor test equipment	Teach-in adapter
characteristics	<ul style="list-style-type: none"> <li>■ Display (V or mA) or. LED (PNP/ NPN) reading</li> <li>■ Sensor programming using integrated teach key</li> <li>■ Connection option for plug-in power supply (available as accessory)</li> </ul>	<ul style="list-style-type: none"> <li>■ Sensor programming with teach-in pin</li> <li>■ Teach-in using key</li> <li>■ For sensors with M12 connection</li> </ul>

IO-Link SensControl

IO-Link IO-Link Master

IO-Link USB-IO-Link Master

Network components	IO-Link SensControl	IO-Link IO-Link Master	IO-Link USB-IO-Link Master
characteristics	<ul style="list-style-type: none"> <li>■ Wireless IO-Link Master (WLAN and Bluetooth LE) with integrated battery</li> <li>■ Visual indication of device status and data processing activity</li> <li>■ Easy, standardized and reproducible configuration</li> <li>■ Diagnostics and analysis</li> <li>■ Apps for iOS and mobile Android devices</li> </ul>	<ul style="list-style-type: none"> <li>■ 8 Port-Link Master for use in the field and control cabinets</li> <li>■ Data transmission to Master: parameters, identification, process and diagnostic information</li> <li>■ User-convenient parameterization via web interface</li> <li>■ EtherNET/IP or Profinet interface</li> <li>■ Multiprotocol (Modbus TCP, OPC-UA-capable)</li> </ul>	<ul style="list-style-type: none"> <li>■ Parameterization of IO-Link sensors</li> <li>■ Windows-based software IO-Link device tool included</li> <li>■ Full set including power supply unit</li> </ul>

### Reflectors & beam columnators

	Reflectors	Reflective tapes	Apertures	Glass covers Filter Lens
<b>Reflectors</b> <b>Lenses</b> <b>Apertures</b> <b>Glass</b>				
characteristics	<ul style="list-style-type: none"> <li>■ Self-adhesive or screw-mount reflectors</li> <li>■ Circular or rectangular</li> <li>■ All-metal reflectors</li> <li>■ Ecolab certified types, resistant to cleaning agents</li> </ul>	<ul style="list-style-type: none"> <li>■ Self-adhesive tapes</li> <li>■ Various widths and lengths</li> </ul>	<ul style="list-style-type: none"> <li>■ Apertures for various sensor types</li> </ul>	<ul style="list-style-type: none"> <li>■ For various sensor types</li> </ul>

	Beam columnators	Beam deflectors
<b>Beam columnators and deflector (Ultrasonic)</b>		
characteristics	<ul style="list-style-type: none"> <li>■ Replacement nozzles for sensors with sonic nozzles</li> </ul>	<ul style="list-style-type: none"> <li>■ Ideal for cramped spaces</li> <li>■ Bends the sound 90°</li> </ul>

Magnets

Magnets	Cylindrical magnets	Rectangular magnets and rotors
characteristics	<ul style="list-style-type: none"> <li>■ For all magnetic proximity switches</li> <li>■ Magnets in various sizes and strengths</li> <li>■ Magnetization along the cylinder axis</li> <li>■ For ambient temperatures up to +180 °C</li> </ul>	<ul style="list-style-type: none"> <li>■ For magnetic rotary encoders</li> <li>■ Magnets available individually or integrated in the rotor</li> <li>■ Magnetization throughout the depth</li> <li>■ For ambient temperatures up to +180 °C</li> </ul>

# Baumer – the strong partner.

We at Baumer are close to our customers, understand their needs and provide the best solution. Worldwide customer service for Baumer starts with on-the-spot personal discussions and qualified consultation. Our application engineers speak your language and strive from the start, through an interactive problem analysis, to offer comprehensive and user-compatible solutions.

## We are close to you across the globe.

The worldwide Baumer sales organizations guarantee short delivery times and readiness to supply. Many of our customers are directly linked via our electronic order system with the JIT logistics process.

A worldwide network coupled with the most modern communication techniques enable us to deliver information quickly and transparently to decision makers in all Baumer locations.

Closeness to the customer for Baumer means being available for your needs anywhere and at any time.

# Worldwide presence.
